## Of The Yearbook To: Mr. Jerry Cronin

Presented by Alex Sharry & Nick Thompson

Each year the graduating class identifies an individual who has had a significant positive impact on the class and school community to receive the yearbook dedication. We dedicate the book to someone who has demonstrated great dedication to us. Though we, the Class of 2005, are grateful to so many for the support that has gotten us to this day, we are pleased to have the opportunity to recognize and thank one man who has quietly, consistently and selflessly made the community of Westwood High School better. Technically his title is "substitute teacher", but this man is so much more. His commitment to us is full-time. There is no substitute for Mr. Jerry Cronin.

Mr. Cronin is a fixture in the community. He grew up in Dorchester; majored in political science at Northeastern; and had a long successful career with *The Boston Globe*, ultimately as Sales Manager of Advertising. The Town of Westwood has been his family's home since 1969. His three children graduated from Westwood High School and his daughter Christine now teaches at the Martha Jones School here in town. Mr. Cronin embodies good citizenship. His involvement in and impact on the greater community is broad. Among his many services to the community, Mr. Cronin has volunteered for the Town Financial Committee, the Westwood Historical Society, the Islington Betterment Committee and the Library, as a Trustee. But how did he come to make the Westwood High School community better?

Seven years ago Mr. Cronin joined the Westwood High School community as a substitute teacher. Having retired from the *Globe*, he could have invested his time in improving his already good golf game. Lucky for Westwood High School, he invested in us. He doesn't simply fill-in

"Mr. Cronin is a guide by example kind of guy."  
- Callie Fisher

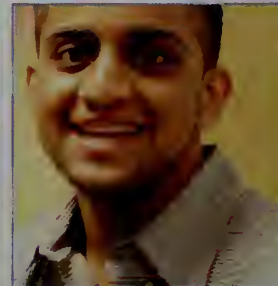

"He is a kind-hearted man devoted to enriching student's lives. He knows every student in the school by name and truly cares about each individual."  
- Emily O'Connor

"He's been a great friend to the class of 2005. He was dedicated greatly to the move to the new school, and through all his involvement in the WHS community."  
- Adam Spirer

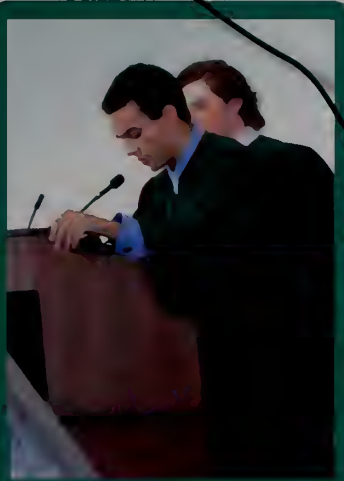

"He deserves this dedication just for being him. I love hearing, 'Well hello Ms. Resha.' It's always followed by a big smile, some sports talk, or a funny joke!"  
- Erica Resha

"Mr. Cronin has been a valuable asset and has given back to the community in countless ways."  
- Qays Munir

for others; rather, he has carved out his own important role in the day to day life of the school. We felt the impact of his presence immediately and his commitment has never waned. For example, in preparation for our move from the old school to the new school, Mr. Cronin took the initiative to identify and pack our trophies, memorial plaques, and a copy of every year's yearbook to preserve our history. He is omnipresent – He is everywhere we are, and the Class of 2005 appreciates that.

*Here are a few things that students have to say about Mr. Cronin:*

Ali Berluti - "Mr. Cronin has taken the time to develop personal relationships with all of us."

Derek O'Leary - "He immerses himself in everything we love in this school, but also in those things that, maybe we don't appreciate, but should. More importantly, he really cares and respects the students. It's not just his job, and we are not simply 'responsibilities' – we're what he cares about and what he loves."

Callie Fisher - "Mr. Cronin is a guide by example kind of guy."

Emily O'Connor - "He is a kind-hearted man devoted to enriching students' lives. He knows every student in the school by name and truly cares about each individual."

Erica Resha - "He deserves this dedication just for being him. I love hearing 'Well hello Ms. Resha.' I always know it's him and it's always followed by a big smile, some sports talk, or a funny joke!"

Maura Mahoney - "Mr. Cronin is one of the constants at WHS. He is a person you can count on, whether it's at a sporting event or in the classroom."

Ryan Kehoe - "He keeps people in line."

Kristen Maloney - "He is always willing to offer advice and help solve problems. He is everyone's favorite substitute and is knowledgeable about many subjects. No matter where he is, whether walking through the crowded hallways of WHS or somewhere in the community with his family, he always acknowledges you and is a friendly face."

Natalia Morozov - "He embodies the character of WHS."

Mr. Cronin, you connect us to our past – as our storyteller, our archivist, our memory. You connect us to our present – with our daily welcome at the door, and our messages of encouragement. You connect us to our future – by leading the grand opening of our new school, and rolling out the carpet for our individual and collective possibilities. Mr. Cronin, we thank you.

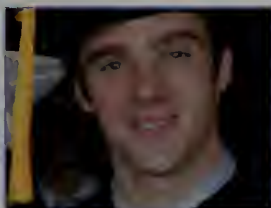

"Through my four years at WHS, I have never been so close to any faculty member as I am to Mr. Cronin. In the eyes of students, he's the most respected teacher and friend in the school."

- Jackie Auode

Ms. Jean Wentworth

*Principal*

"I think Ms. Armstrong is so helpful to all her students and goes out of her way to help them achieve their goals."

-Dori Irwin

"Ms. Armstrong was a great counselor. She kept me focused all the time. She's really smart, organized, knowledgeable, and calm in a crisis."

-Mark Broderick

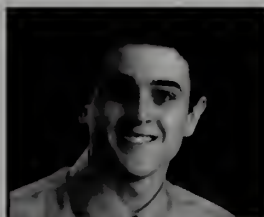

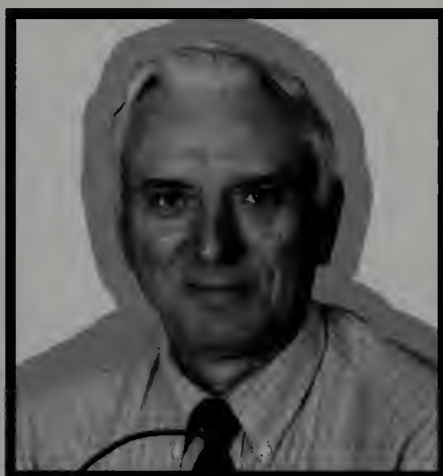

"Ms. Armstrong was really helpful throughout the college process; she made things easy for me. It's obvious how much she cares for her students."

-Elana Bornstein

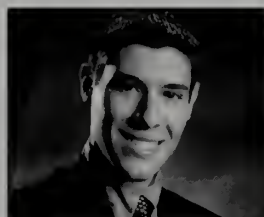

## Mr. Richard Hargreaves

*Mathematics Teacher & Coach*

"Mr. Hargreaves has spent many years serving students in the classroom, and on the track as well. He is a superb track coach whose commitment to this high school is incredible."

-Jon Brenton

"He demands the same dedication and excellence from his students in the classroom as his runners on the track. He also has the uncanny ability to draw a perfect circle freehand on the blackboard without the aid of any tools."

-Andres Castro

Members of our class should be lucky enough to turn out like Mr. Hargreaves. He should be recognized for the impact he has made on the lives of his students and peers. As a coach, teacher, and role model, he has helped us with our endeavors. As someone who knows him well, I feel he deserves much honor."

-Jesse Plate

"Mr. Burke is someone I could always go to when I had a problem. Mr. Burke truly cares for his students and only wants the best for them. Mr. Burke is a teacher who I will never forget!"

-Caitlyn McDermott

"Mr. Burke has been one of the best teachers I've ever had. Not only is he a fun guy to be around, he is also a great teacher and friend to everyone. He always looked for the best in everyone and, because of him, school is a much more fun place to learn."

-Danica Peterson

"Mr. Burke epitomizes what students want in a teacher. He is kind, funny, fair, and he has a great personality. He'll be truly hard for anyone to follow."

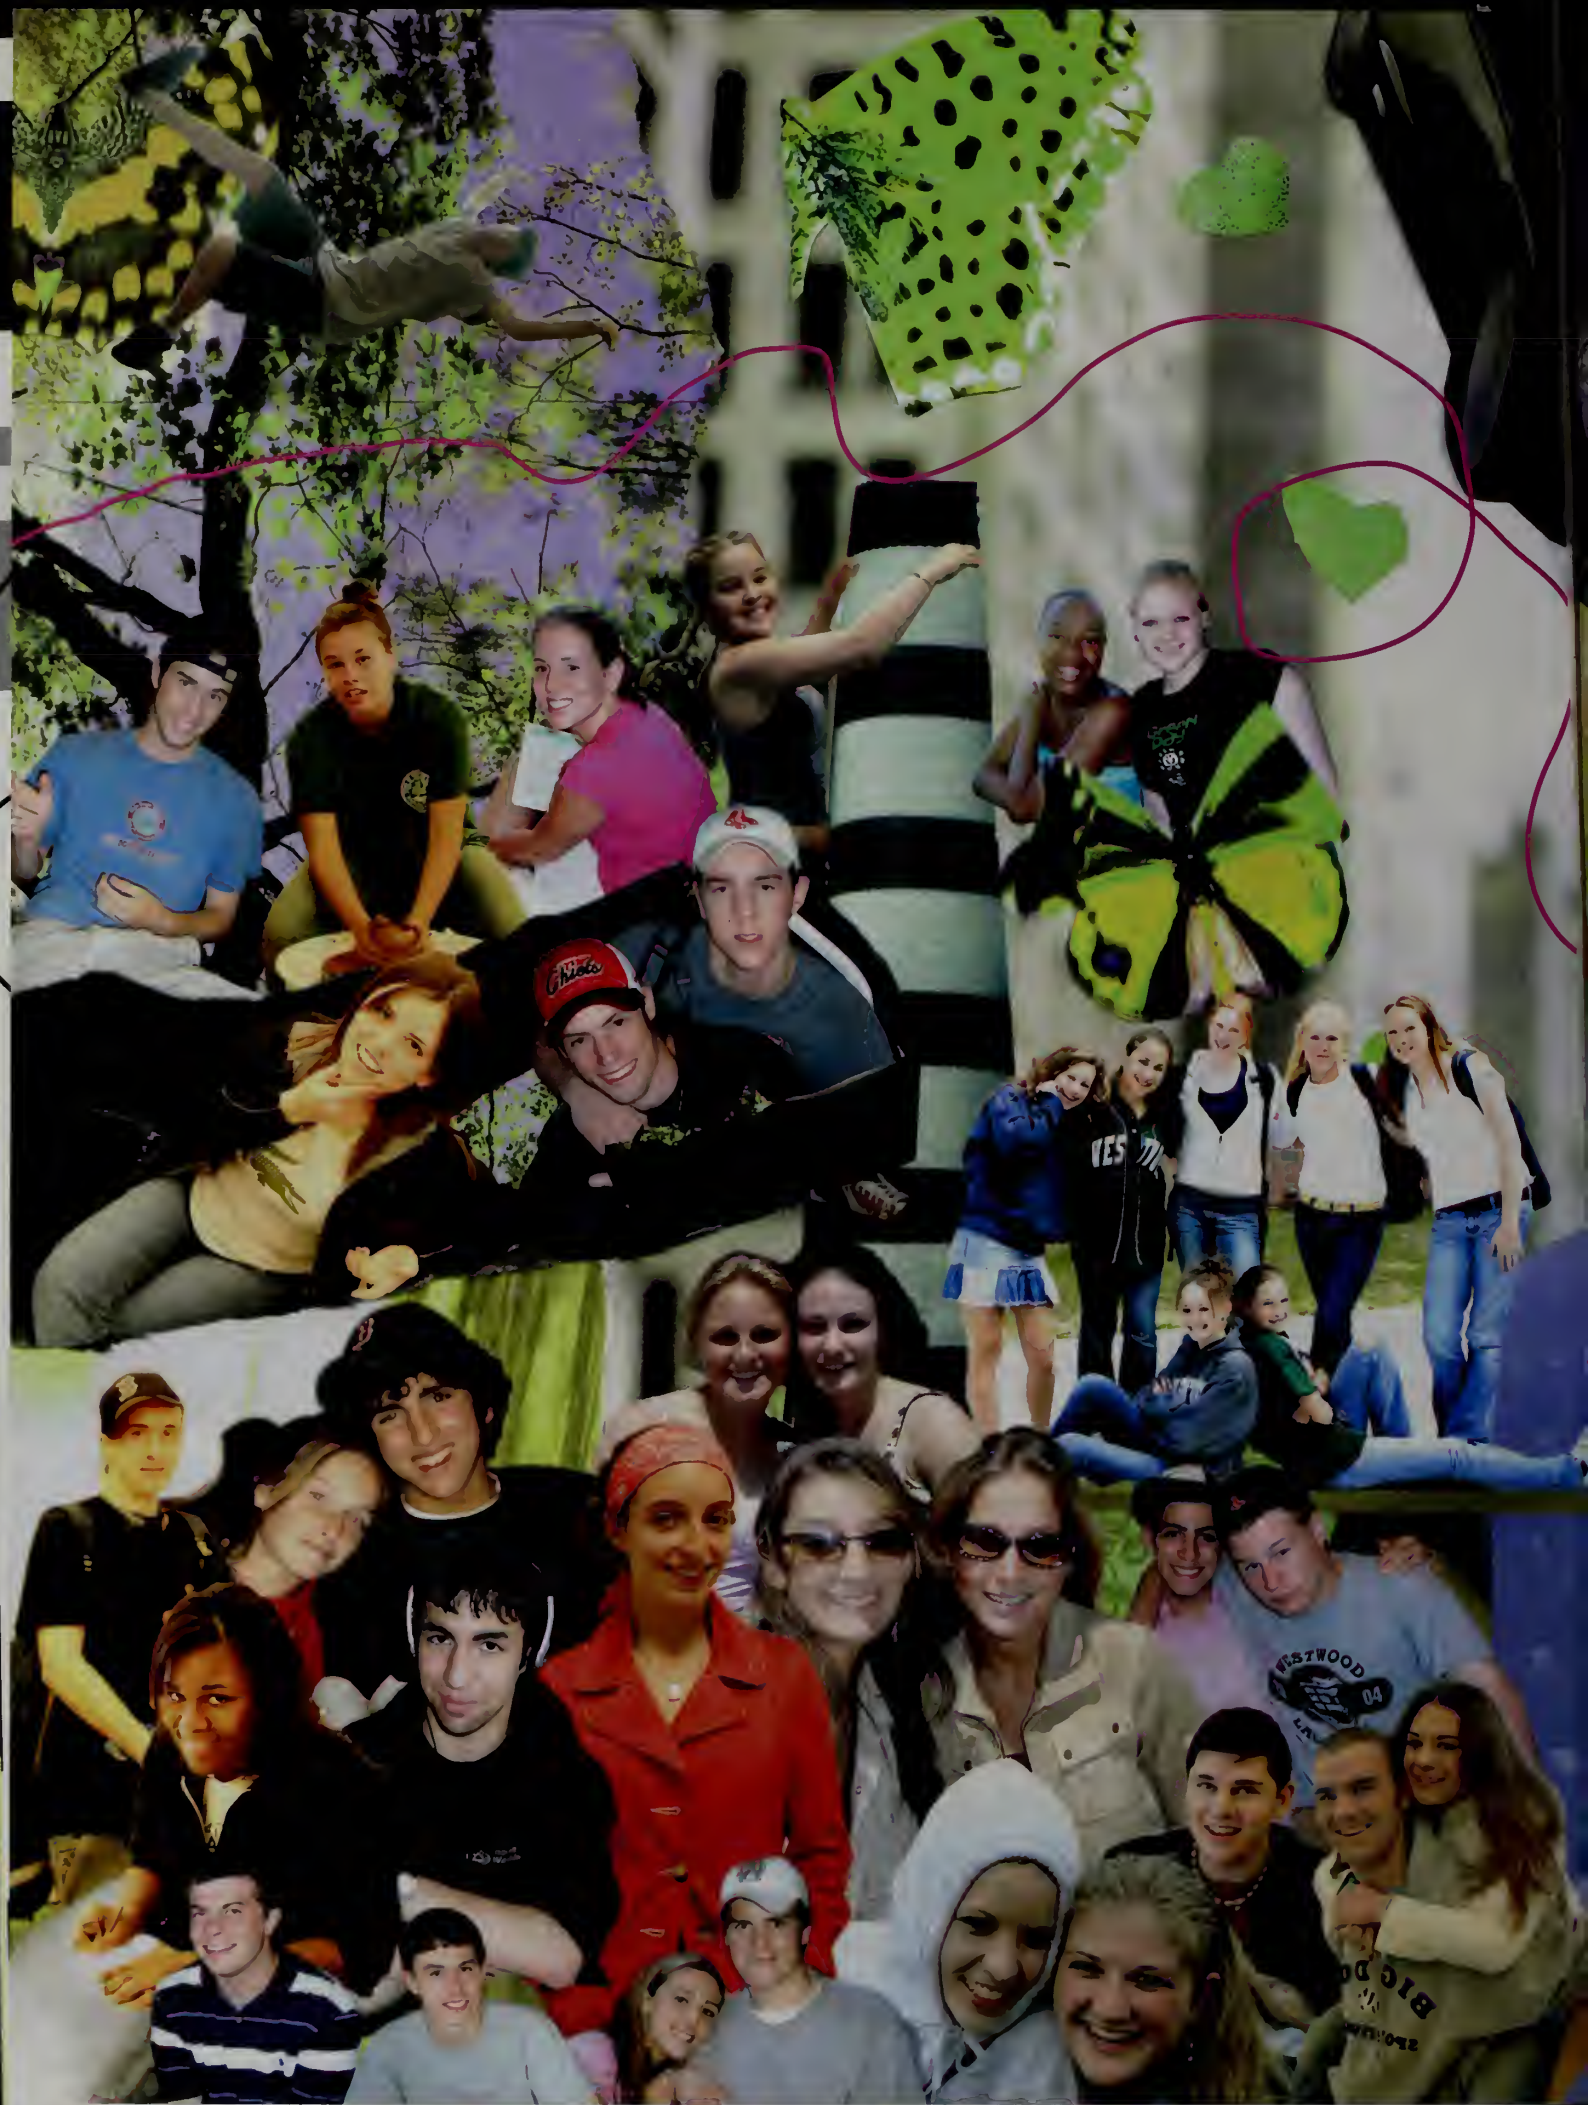

-James Kenney

In wild dedication, take the moment of hope and let it run, and never look back at all the damage we have done now... Well, we're changin' the strings on our guitars; it's been a crazy, sort of a song so far. There's no need for a jumble of words, just a thanks and hug, because you know I can't get enough. You know who you are; we made up the best years of our lives-one moment at a time. 'Cause I believe that we are lucky. We are golden. And music is our aeroplane. Oh ya, BE ONLY YOURSELF.

Throughout high school I have experienced the best four years of my life. From playing sports, winning the super bowl, to everyday things like hanging out with friends. I feel that to enjoy high school to the fullest you have to balance doing work and having fun. Looking back on your high school experience, you never think of all the work you did, you think of how much fun you had. To quote Lynyrd Skynyrd, "If I leave here tomorrow would you still remember me?" Starting senior year at a new school didn't seem like an easy thing to do. Thankfully, people at WIIS made what could have been a difficult task, easier by being so friendly and welcoming. After switching schools each year of high school I had begun to feel like making an effort to socialize would be a lost cause. To those of you who helped me find my way

both around the building and in the social scene...words can not begin to express my gratitude. I'm so thankful for your kindness. I'm truly sad to leave the friends I made, even though my time here was short it was surely 'sweet'.

## Lauren Jackson

Putting the past four years of my life into words is nearly impossible. All of my family including my mom, dad and Kelly always believed in me fully and showed me an incredible amount of support. My friends are what made my high school experience so amazing. I could not ask for any better or find others that mean this much to me. Jackie A, Snasr, LBF, Finchy, Kat, Ali, Jenna, Andrea, AJ, Kelly, Mer & my gymnastics girls <3 There truly was never a dull moment. "You only live once, but when you live like us - once is enough."

## Andy Lennon

I suppose in retrospect that High School has been kind to me. I have friends, I'm going to college, and I can count all the way to schifty - five. I made some good decisions: taking AP classes, not eating all the M & Ms, taking a partial break from sports in junior year. I made some bad decisions...Anywho. The big thing for four years has been hackey - sack. It got me through High School, and it was the means by which I became the ninja. To future students: Let not the flying hack of justice fade from prominence. That is the only important thing. Rock On.

As I graduate out of high school, I look back on the fun times of my high school career. I remember the times with all my friends, the flunked tests, and the teachers that have come and gone. I was a part of Chapella, and Cross country. All that running finally paid off as captain this year. I want to remember my time at WHS as a time of growth and fun and I will always remember this class as a class willing to do anything for a good laugh. I want to be remembered as a kid who would stand out among people. I guess everyone does though. That's it.

High School was definitely a crazy and wild ride, but as I look back, it was the greatest time of my life. Whether it was just hanging around with my friends, dissecting many disgusting things in Biology (and then showing the remains to the whole school), coming up with one of my many famous "Bryanisms," or just being a

regular student, I always had a blast. All I want to say is thank you to my peers, my teachers, and most of all my friends for a wonderful time, it was such good.

To Mom, Dad and James, thank you for your love and support.

## Mark O'Connor

A figuratively small fish in what was often literally a big pond, Mark O'Connor spent freshman year disliking the nickname "String Bean" and feigning papal infallibility. Later, he began to devote himself to the more important facets of school, such as breaking chemistry equipment and studying "dogmatic, ideological things." He was a "pleasant surprise" on the tennis team and achieved the dubious distinction of being the first clarinetist to squeak in the

new auditorium. Never did he lose his Taoist optimism or his penchant for alliteration. His advice to future students? "One could do worse than be a swinger of birches."

## Brianne O'Leary

## Kyle Sims

As a senior of Westwood High I would like to look back on the times I attended the school. I will never forget the METCO program that gave me the opportunity to gain a better education. All those times complaining in the morning about going to school. I will miss those moments living life as an innocent teen evolving into a man. The person I will remember is Mrs. Goodloe for helping me out with college. The way I would like to be remembered by the motto: "I did it my way, educated and full of fun and that's that!" sign off K Sims aka Mr. Sims. Shout out to the Westwood Crew You know how we do.

## Nick Sims

First you have to take the number of hours spent in my basement, then divide that by 4 then you have how much fun highschool has been. Building BMX ramps, jumping off the roof, throwing sobe bottles, and the many nights of FSU. So remember the noises and turn up the headphones. Heres to FC Greenstorm and everyone else who hangs in my basement. With new trends every week, its nice to have some constants, thanks everyone. "But at the end of the day you know where we come from and where we call home."

## Adam Spirer

G block free in the caf with friends. My 3-D Design table, especially during the stone carving project. Building cardboard bridges in engineering class. Starbucks coffee in the new school! I'll remember the move most of all. Fun afternoons and long Sundays facing Photoshop on the yearbook committee. The long but fulfilling college search. Much fun in AP Physics. Lots of graphic design, and I loved every minute of it. Chemistry after lunch. The old school courtyard.

## Greg Spirer

It's been a long road and there have been times that I wanted to lean to the side and watch others pass so that I could have a better understanding of what was to come. However that's no way to live. If I strayed from the front it would have been impossible. In a world where over 700 students are crammed into a building six hours a day and expected to play nice, there are bound to be a time when it doesn't seem worth fighting for and sometimes that's the case. Remember, it's your journey, only you say when it's over.

## Anna Springer

## Ben Zwalsky

After a rough start with my Freshman year where my grades were not so great, I am happy to say I was able to turn around and substantially improve. Sure we have all slacked off or procrastinated. For me, it was doodling in my notebook during class. But I was able to get my act together and improve more and more from Freshman year, to Sophomore, and then Junior year. I was also glad to finally get out of the asbestos clad place that was our old school, and finally spend my last months here in a newer, nicer high school.
